

## GCI POWERTOOLS DASHBOARD

## GCI PowerTools Dashboard for OpenText Content Server & Extended ECM Platforms

PowerTools Dashboard enables Content Server users to stay focused, stay on topic, and dramatically increase productivity.

It provides the only way to set up dashboards in Content Server that convey the most relevant data for your daily operations all in one place, at a click of a button directly from the platform menu.

### With GCI Dashboard you can:

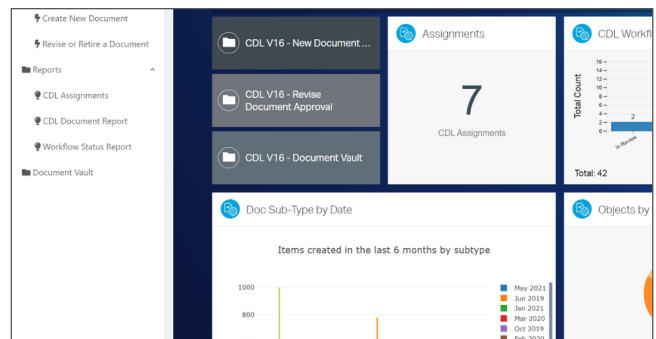

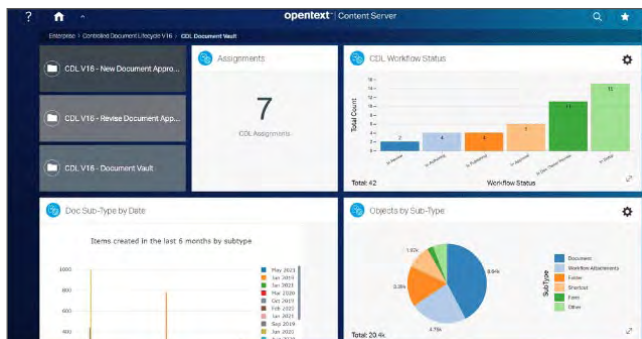

- ✓ Improve user adoption by providing quick links to the most important content
- ✓ Quickly access reports tailored to your needs
- ✓ Access Documents, Folders, Business Workspaces, and Workflow assignments with a simple menu
- ✓ Reduce the number of clicks required to navigate Content Server
- ✓ Compatible in both Classic and Smart View Interfaces

### Rapidly build Dashboards for all your business needs

The GCI Dashboard conveys the most relevant information about your daily tasks in one easy-to-understand place. It provides your users with an easy way to navigate to Departments or Groups like HR, Sales or Operations. It offers an Enterprise menuing system tailored to your applications and an elegant front-end to your existing Content Server/Extended ECM platform, which allows you to reduce the number of clicks dramatically.

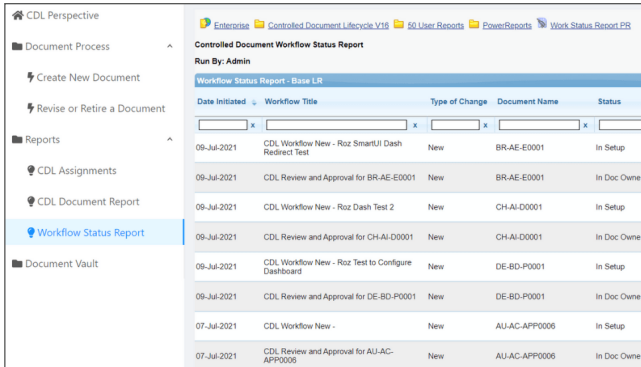

### Become more action-oriented and responsive to your data

By providing quick, convenient access to objects and containers within Content Server, users can quickly access critical actions on items, such as running reports or initiating workflows.

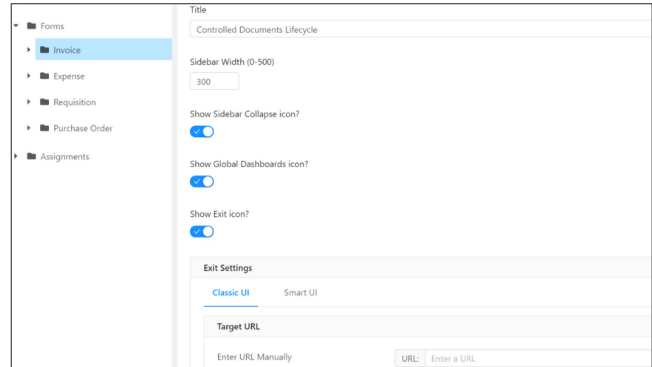

## Find everything you need right in your Content Server menu

PowerTools Dashboards are directly available in Content Server's main menu. A left bar menu ensures your information is in context and content is seamlessly available to those who need it, when they need it.

## Deliver quality outcomes in less time

The dashboard eases document approvals by providing your users with the ability to tailor intuitive, process-based views for their needs.

**We understand that creating a more connected and cohesive work environment is critical to your business goals**

Global Cents provides your users with information in context to foster collaboration and a more cohesive work environment. By providing a more intuitive user experience, onboarding new staff becomes easier and your user adoption of your existing staff increases.
